F.No. TL-39012/1/2025-CV/3494 Date: 19.09.2025

## CORRIGENDUM

In continuation of the Notice Inviting Tender No. TL-39012/1/2025-CV/3362 dated 20.09.2025, related to the tender for procurement of Meity empanelled basic cloud services, the following clarifications are provided:

1. **Scope of Work:** Vendor Requirements (Evaluation Criteria for Technical Bids) at Page No. 9 of the tender document states that *'The bidder should have a minimum qualification of BE(CS)/MTech. (CS)/MCA/DOEACC B Level'*, which may be interpreted as 'the resources who will be involved in the project must possess any of these qualifications.
2. **Scope of Work**: Cloud Services Requirements (Page No. 8 and 9) and **Format-6**: Table-A: Cost Breakup (Page 36) of the tender document have been elucidated as below:

| S. No. | Description |
|---|---|
| 1. | **Virtual Machines – 1-Year Reserved Instances (A)**<br>i. VMs & Disks:<br>• 1 × E4 v4 (4 vCPUs, 32 GB RAM), Linux OS – 1-Year Reserved<br>• 1 × F8s v2 (8 vCPUs, 16 GB RAM), Linux OS – 1-Year Reserved<br>• Each VM provisioned with 1 × Managed Disk (E10)<br>ii. Billing Structure<br>• Upfront Commitment: Fixed pricing secured for 1 year.<br>• Estimated Monthly Cost: Provided as fixed monthly charge for transparency.<br>• Notes: No Year-on-Year (YoY) uplift applies to Reserved Instances. |
| 2. | **Virtual Machines – 3-Year Reserved Instances (B)**<br>i. VMs & Disks<br>• 1 × E4 v4 (4 vCPUs, 32 GB RAM), Linux OS – 3-Year Reserved<br>• 1 × F8s v2 (8 vCPUs, 16 GB RAM), Linux OS – 3-Year Reserved<br>• Each VM provisioned with 1 × Managed Disk (E10)<br>ii. Billing Structure<br>• Upfront Commitment: Fixed pricing secured for 36 months.<br>• Estimated Monthly Cost: Provided as fixed monthly charge for the contract duration.<br>• Notes: Reserved Instance pricing is locked for 3 years; YoY uplift does not apply. |

| | |
|---|---|
| 3. | **Virtual Machines – Pay-As-You-Go (C)**<br>i. VMs & Disks<br>• 1 × E4 v4 (4 vCPUs, 32 GB RAM), Linux OS – PAYG<br>• 1 × F8s v2 (8 vCPUs, 16 GB RAM), Linux OS – PAYG<br>• Each VM provisioned with 1 × Managed Disk (E10)<br>ii. Billing Structure<br>• Option A – Actuals: Billed as per Azure invoice/reseller billing detail (transparent usage-based charging).<br>• Option B – Blended Fixed Price (**Preferred**): Monthly fixed price including a buffer uplift (5–7% p.a.) to cover scale, usage growth, and currency fluctuation.<br>• Notes: PAYG costs are inherently variable; buffer assumptions included if blended pricing is chosen. |
| 4. | **Virtual Machines – Pay-As-You-Go (Additional / Scale-Up instances for ballpark) (D)**<br>i. VMs & Disks<br>• 1 × E4 v4 (4 vCPUs, 32 GB RAM), Linux OS – PAYG<br>• 1 × B2s (2 vCPUs, 4 GB RAM), Linux OS – ~730 hours/month PAYG<br>• Each VM provisioned with 1 × Managed Disk (E10)<br>ii. Billing Structure<br>• Option A – Actuals: Direct pass-through billing from Azure invoice.<br>• Option B – Blended Fixed Price (**Preferred**): Monthly fixed charge with 5–7% annual buffer applied for variable consumption.<br>• Notes: Designed to accommodate scale-up requirements; billing reflects either actual metered usage or forecasted fixed-rate with uplift buffer. |
| 5. | **Final Cost calculation, Assumptions & Uplift**<br>• Final Cost breakdown should cover costing for following combinations - **(A) + (D), (B) + (D), (C) + (D)** and other services requested in the tender document.<br>• Reserved Instance (RI) workloads are fixed price throughout their commitment period; no YoY uplift applies.<br>• To ensure budget predictability, we propose a 5–7% YoY uplift applied only to (Pay-as-you-Go) PAYG forecasts, reflecting industry-standard assumptions for inflation and usage growth. |

This issues with the approval of the competent authority.

09/2025
